

Fundamentals and Bootcamp laptop requirements

A laptop is required for the fundamentals classes. (except Chelmsford) The specifications are below.

Laptop Specs

- Pentium III CPU or better, prefer Core 2 Duo 1.6GHz minimum
- 1GB system RAM (2 GB preferred)
- Graphics adaptor capable of delivering XGA (1024x768) with minimum 128MB RAM
- Windows Vista, Windows XP Pro or Windows Server 2003/2008 or Windows 7
- 10/100MB network connection full duplex
- Windows Internet Explorer 7 or later (Firefox/Safari ok, but don't use active – screens look/act differently)
- Windows.net framework 2.0 or later
- Administrative Account Access
- MAC computers can be used (not recommended) running in Windows mode – software not ported for the MAC platform. This mode will cause software to run at a diminished capacity of speed and performance
- Windows Media Player 11

A laptop is required for the bootcamp classes. (including Chelmsford) The specifications are below.

You will need to download the Axis Design tool while in class, and we require that your computer meet these browser specs.

- MS Internet Explorer 8 or higher*, Google Chrome, Apple Safari 4 or higher, Mozilla Firefox 3.5 or higher.
