

Finding a PTZ solution to meet any client need  
– with quick installation and minimum support?  
**That's easy.**

Axis makes it easy to promote, sell, install and support PTZ solutions for just about any client on your list – from small convenience stores to mission-critical operations such as airports. With a complete range of PTZ cameras covering every price point and user scenarios and with support every step of the way, Axis offers you new possibilities to broaden your market and increase sales.

Axis makes your work easier with:

- > A complete range at various price points to satisfy all your customers
- > Quick, straightforward installation with cameras that are ready right out of the box
- > Easy distribution due to a minimum of boxes

- > A wide range of accessories for tailored solutions
- > Reliable operation for minimum maintenance and support
- > Tools to help you recommend the right solution for each situation

Less complicated. More capable. Easy choice.

## Product selection in 3 easy steps

### 1 Indoor or outdoor?

Axis M-, P- and Q-line PTZ dome network cameras are easy to install, suitable for any environment, and require no additional housing.

### 2 Standard resolution or HDTV?

For many installations, standard resolution is all you need, but when every detail counts, consider an Axis PTZ camera with HDTV resolution that gives you greater resolution and a wider field of view (16:9) to capture more of a scene.

### 3 Which features are critical for your installation?

- High zoom and resolution for identification of objects at great distances
- Extended tilt range for better view in uneven terrain
- 24/7 continuous camera motion
- Pan and tilt speed to move from different scenes and/or follow moving objects
- Guard tour for unmanned operation
- Intelligent video functionalities:  
Gatekeeper, auto-tracking, video motion detection, distributed intelligence with AXIS Camera Application Platform
- Arctic Temperature Control for safe start-up in cold climates

Whatever your needs, Axis has a high-performance PTZ dome to meet them
