

AXIS 2100 Network Camera

Live web images unleashed

Crisp, quality images and streaming video from anywhere on your network.

The AXIS 2100 Network Camera is a digital camera with direct network attach! No PC required – the camera operates stand-alone and can be placed wherever there is a LAN connection or an available modem. It even contains a high performance web server, so you can put the camera directly on the internet!

- Built-in Web Server and network connection
- Place a camera wherever you want it – No PC required for operation
- View live images from any network-connected PC
- Monitor your house or office over the Internet
- Audio functionality available in combination with the AXIS 2191 Audio Module
