## **Axis Launches HDTV-Quality Video Surveillance Kits for Small-, Medium-Sized Businesses**

### **Easy to Install AXIS M10, M11, M32 Series Bundles Offer Complete, Future-Proof IP-based Video Surveillance Solution for SMBs at Affordable Price**

CHELMSFORD, Mass. – July 21, 2010 – Axis Communications, the global leader in the network video market, today announced that it is introducing several bundled product offerings addressing the specific needs of small- and medium-sized businesses.

The new AXIS M Series digital video surveillance kits each consist of four network cameras and come complete with professional monitoring and recording software. The kits are easily expandable by tapping into Axis' comprehensive portfolio of more than 50 compatible network camera models for any need.

The AXIS M10, AXIS M11 and AXIS M32 Series digital video surveillance kits include AXIS Camera Station software for monitoring and recording. The proven, professional-grade software can be installed on a standard PC and features automatic camera discovery and configuration, a flexible live view setup and an intuitive user interface. AXIS Camera Station is in use at more than 30,000 sites worldwide and available in 11 languages.

“With our new bundled AXIS M Series offerings, business owners get a complete solution for next-generation digital video surveillance at an affordable price,” said Fredrik Nilsson, general manager, Axis Communications Inc. “The new camera kits can be mixed and matched and are ideal for small retail shops, office environments and the education sector. They provide the option of HDTV image quality for better identification and also enable business owners to remotely monitor their properties.”

Business owners can choose from seven different AXIS M Series kits to best meet their individual needs. The AXIS M32 Surveillance Kits feature discreet fixed dome cameras with motion detection and detection of camera tampering attempts like blocking or spray-painting. The AXIS M1031-W Network Camera kit includes four wireless cameras that can detect movement in the dark and have two-way audio functionality. All AXIS M Series kits can be easily expanded by adding on additional Axis network cameras.

Interested parties can learn more about the new AXIS M Series digital video surveillance kits for small and medium-sized businesses through an interactive Web experience at [www.axis.com/focus](http://www.axis.com/focus).

AXIS M Series kits are available through Axis' distribution channels at the following suggested retail prices: AXIS M10 Series from \$799-\$1,599; AXIS M11 Series from \$1,399-\$1,799; AXIS

M32 Series from \$1,599-\$1,999.
