## Protecting Valuable Goods

**At larger cargo and logistics centers, it is necessary to keep an extra eye on the valuable goods passing by every day. This is a time consuming and difficult task and several transportation companies have chosen Axis network video solutions to achieve a cost-efficient solution for their needs.**

As a result, they benefit from high-quality live and recorded video from:

- Perimeters
- Entrances and exits
- Loading docks
- Warehouses and cargo areas
- Rail yards and truck depots

In case of damage or loss, Axis network video solutions make it easy to find out what happened, and when it happened.

### **Increasing efficiency**

With Axis, you get a future-proof and flexible surveillance solution that can grow with your needs. In addition, you benefit from a wide range of capabilities that help you improve the overall efficiency, such as:

- Automatic alerts when someone enters a restricted area – day or night
- Immediate notification if a camera is manipulated or malfunctioning
- See in the dark capabilities with thermal network cameras
- HDTV video images, facilitating incident investigations and identifications
- Network access to live and recorded video, allowing any authorized person to access the video from anywhere

### ***About Axis Communications***

*Axis is an IT company offering network video solutions for professional installations. The company is the global market leader in network video, driving the ongoing shift from analog to digital video surveillance. Axis products and solutions focus on security surveillance and remote monitoring, and are based on innovative, open technology platforms. Axis is a Swedish-based company, operating worldwide with offices in more than 20 countries and cooperating with partners in more than 70 countries. Founded in 1984, Axis is listed on the NASDAQ OMX Stockholm, under the ticker AXIS. For more information about Axis, please visit our website at [www.axis.com](http://www.axis.com).*
