

# AXIS Audio Manager Pro

## Software for enterprise-scale public address systems

AXIS Audio Manager Pro software enables efficient remote management of large IP audio installations. Take control of system setup of audio devices, audio zones, content, user permissions, device health monitoring, and more with a single intuitive interface. AXIS Audio Manager Pro also offers advanced scheduling for easy coordination of live, scheduled, and event-triggered announcements, bell signals and background music, plus specialized speaker features such as strobe lights and text displays. Content and schedules can be set to apply to one, several, or all zones. The easy-to-install software comes with unlimited licenses and can run on dedicated hardware or virtual machines.
