

Product Discontinuation Statement

This document outlines Axis products that have been discontinued or will be discontinued, as well as the relevant replacement products.

The following products are covered by this statement:

- AXIS T95A63 BRACKET EXTENSION
- AXIS T95A66 BRACKET ROTATION

Final Order Date

The AXIS T95 dome housing is since the launch of outdoor versions of AXIS P55-series, only used when a customer requires audio or I/O from an AXIS P55 outdoor installation. Then the indoor version of the camera is utilized and mounted into the housing for higher IP-rating and climate control. Sales of these two special brackets has been very limited and the products are therefore being discontinued from our bracket offer. The **Final Date** that a Discontinued Product in the list below can be purchased from Axis is **August, 1th, 2013**. Customers will be given the information of the Product Discontinuation starting **June 3rd, 2013**.

Discontinued Core Products

Discontinued Product	Replacement Product
AXIS T95A63 BRACKET EXTENSION [5010-631]	None for these special brackets. The standard mounts are still available.
AXIS T95A66 BRACKET ROTATION [5010-661]	

RMA Policy

Axis will supply customers with the Discontinued Product as the primary alternative. When this is not possible, the replacement product will automatically be the alternative returned where applicable (see above table).

Support Policy

Axis will continue to give world-class support for the Discontinued Product until August 1st, 2016, or if the product warranty period extends beyond this as long as the product has warranty. No additional feature development will be made for the Discontinued Product, effective June 3rd 2013.

Lund, Sweden, June 3rd , 2013

Erik Mårtensson
Product Manager, Axis Communications
