

AXIS A1210-B Network Door Controller

Compact barebone one door controller

AXIS A1210-B includes everything needed to control one door all powered by one PoE cable. Fully integrated within Axis end-to-end solutions, it's optimized for both small and large installations and supports flexible authentication using different types of credentials. Suitable for installation anywhere, this compact, competitively priced barebone unit offers fast and easy installation on walls. Plus, it's possible to stack units, ideal for installation in small spaces such as existing or newly installed cabinets. Furthermore, with built-in cybersecurity features, it prevents unauthorized access and safeguards your system.

AXIS A1210-B Network Door Controller

Door controller

| | |
|---------------------|--|
| Readers | Up to 2 OSDP readers (multi-drop) or 1 Wiegand reader per controller OSDP Secure Channel supported |
| Doors | 1 door |
| Credentials | Qualified for up to 250 000 credentials stored locally |
| Event buffer | Qualified for up to 250 000 events stored locally |
| Power | Power in: 12 V DC, max 36 W, or Power over Ethernet (PoE) IEEE 802.3at, Type 2 Class 4 Relay: 1x relay NO/NC, max 2 A DC Power out lock: 12/24 V, jumper configurable Powered by PoE: max 900 mA at 12 V DC, max 450 mA at 24 V DC Powered by DC: max 1600 mA at 12 V DC, max 800 mA at 24 V DC Power out reader: 12 V DC, max 500 mA Total power budget for peripheral devices (locks, readers etc.): 2100 mA at 12 V if powered by DC, 1400 mA at 12 V if powered by PoE Class 4 |

I/O interface

| | |
|-------------------------|---|
| Reader | DC output: 12 V, max 500 mA Data: OSDP, Wiegand I/O: Three open drain outputs, max 30 V, 100 mA each One supervised input |
| Door | DC output: 12/24 V, jumper configurable Power output: See the Power section I/O: REX and door position sensor supervised inputs Output relays: one relay, Form-C contacts: 2 A at 30 V DC, resistive |
| Auxiliary | DC output: 12 V, 50 mA I/O: Two ports, configurable inputs or outputs |
| External | External tamper supervised input Alarm supervised input |
| Supervised input | Configurable input for reader interface, door REX input, door position sensor input, and AUX Programmable end-of-line resistors, 1 K, 2.2 K, 4.7 K and 10 K, 1 %, ¼ watt standard One unsupervised input dedicated for cabinet tamper |

Cable requirements

Wire size for connectors: CSA: AWG 28–16, CUL/UL: AWG 30–14
DC power and relay: AWG 18–16
Ethernet and PoE: STP CAT 5e or higher
Reader data (RS485): 1 twisted pair with shield, 120 ohm impedance, qualified for up to 1000 m (3281 ft)
Reader data (Wiegand): Qualified for up to 150 m (500 ft)
Reader powered by controller (RS485): AWG 20–16, qualified for up to 200 m (656 ft)^a
Reader powered by controller (Wiegand): AWG 20–16, qualified for up to 150 m (500 ft)^b
I/Os as inputs: Qualified for up to 200 m (656 ft)

System on chip (SoC)

| | |
|---------------|------------------------|
| Memory | 512 MB RAM, 2 GB Flash |
|---------------|------------------------|

Network

| | |
|--------------------------|--|
| Network protocols | IPv4, IPv6, HTTP, HTTPS ^c , TLS ^c , QoS Layer 3 DiffServ, SMTP, mDNS (Bonjour), UPnP [®] , SNMP v1/v2c/v3 (MIB-II), DNS/DNSv6, DDNS, NTP, RTSP, RTP, TCP, UDP, IGMPv1/v2/v3, DHCPv4/v6, SOCKS, SSH, MQTT v3.1.1, Syslog |
|--------------------------|--|

System integration

| | |
|--|--|
| Application Programming Interface | Open API for software integration, including VAPIX [®] , metadata and AXIS Camera Application Platform (ACAP); specifications at axis.com/developer-community . ACAP includes Native SDK. One-click cloud connection |
| Video management systems | Compatible with AXIS Camera Station, video management software from Axis' Application Development Partners available at axis.com/vms |
| Tamper detection | Removal of unit cover/tamper front Reader tamper Tilting, vibration |

Approvals

| | |
|-------------------------|---|
| Product markings | UL/cUL, KC, EAC, VCCI |
| Supply chain | TAA compliant |
| EMC | EN 55035, EN 55032 Class B, EN 61000-3-2, EN 61000-3-3 Korea: KC KN32 Class B, KC KN35 |
| Safety | IEC/EN/UL 62368-1, IEC/EN 60950-1, UL 294 |
| Cybersecurity | |
| Edge security | Software: Signed firmware, brute force delay protection, digest authentication, password protection Hardware: Axis Edge Vault cybersecurity platform Secure element (CC EAL 6+), secure keystore, secure boot |
| Network security | IEEE 802.1X (EAP-TLS) ^c , IEEE 802.1AR, HTTPS/HSTS ^c , TLS v1.2/v1.3 ^c , Network Time Security (NTS), X.509 Certificate PKI, IP address filtering |

General

| | |
|-----------------------------|--|
| Casing | Aluminum Color: white NCS S 1002-B |
| Mounting | Cabinet mount ^d DIN rail mount ^d Stack mount ^d |
| Connectors | Network: Shielded RJ45 10BASE-T/100BASE-TX/1000BASE-T PoE I/O: Terminal blocks for DC power, inputs/outputs, RS485/Wiegand, relay. Detachable and color coded connectors for ease of installation. Wire size for connectors: CSA: AWG 28–16, CUL/UL: AWG 30–14 |
| Operating conditions | 0 °C to 70 °C (32 °F to 158 °F) Humidity 20–85% RH (non-condensing) |
| Storage conditions | -40 °C to 70 °C (-40 °F to 158 °F) |
| Dimensions | For the overall product dimensions, see the dimension drawing in this datasheet. |
| Weight | 425 g (0.9 lb) |
| Box content | door controller, installation guide, connector kit (mounted), grounding kit, cable ties |
| Optional accessories | AXIS TA4701 Access Card AXIS TA4702 Key Fob AXIS TA1801 Top Cover AXIS TA1901 DIN Rail Clip AXIS TA1902 Access Control Connector Kit ^e AXIS TQ1808-VE Surveillance Cabinet ^e AXIS 30 W Midspan ^e AXIS 30 W Midspan AC/DC ^e AXIS T8006 PS12 ^e For more accessories, go to axis.com/products/axis-a1210-b |
| System tools | AXIS Site Designer, AXIS Device Manager, product selector, accessory selector Available at axis.com |
| Languages | English, German, French, Spanish, Italian, Russian, Simplified Chinese, Japanese, Korean, Portuguese, Polish, Traditional Chinese |
| Warranty | 5-year warranty, see axis.com/warranty |
| Part numbers | Available at axis.com/products/axis-a1210-b/part-numbers |
| Sustainability | |
| Substance control | PVC free, BFR/CFR free in accordance with JEDEC/ECA Standard J5709 RoHS in accordance with EU RoHS Directive 2011/65/EU/ and EN 63000:2018 REACH in accordance with (EC) No 1907/2006. For SCIP UUID, see echa.europa.eu |
| Materials | Screened for conflict minerals in accordance with OECD guidelines |

Key features and technologies

Axis Edge Vault

Axis Edge Vault is the hardware-based cybersecurity platform that safeguards the Axis device. It forms the foundation that all secure operations depend on and offers features to protect the device's identity, safeguard its integrity from factory and protect sensitive information from unauthorized access.

Establishing the root of trust starts at the device's boot process. In Axis devices, the hardware-based mechanism **secure boot** verifies the operating system (AXIS OS) that the device is booting from. AXIS OS, in turn, is cryptographically signed (**signed firmware**) during the build process. Secure boot and signed firmware tie into each other and ensure that the firmware has not been tampered with during the lifecycle of the device and that the device only boots from authorized firmware. This creates an unbroken chain of cryptographically validated software for the chain of trust that all secure operations depend on.

From a security aspect, the **secure keystore** is the critical building-block for protecting cryptographic information used for secure communication (IEEE 802.1X, HTTPS, Axis device ID, access control keys etc..) against malicious extraction in the event of a security breach. The secure keystore is provided through a Common Criteria and/or FIPS 140 certified hardware-based cryptographic computing module. Depending on security requirements, an Axis device can have either one or multiple such modules, like a TPM 2.0 (Trusted Platform Module) or a secure element, and/or a system-on-chip (SoC) embedded Trusted Execution Environment (TEE).
