Lund University, the second oldest university in Sweden, is a central part of the city and hosts students from all over the world. This international culture adds to the character of Lund and suits Axis well.

All taxis in Sweden are licensed. This means that (1) the vehicle will have yellow license plates instead of normal white ones, (2) the driver should have his/her taxi driver's license visible on the dashboard and (3) all rates should be published and easily readable from outside the vehicle. To compare the meter price of different companies, all companies should show a comparison price, which indicates a typical journey according to Swedish Transport Regulation regarding taxi carriers. It is advisable to avoid companies showing a very high comparison price.

These taxi companies will also accept major credit cards as payment for the trip. To avoid waiting time, especially during rush hours, we recommend prebooking your taxi if possible.
