

Revoke - Product Discontinuation Statement

This document serves as a revocation of an earlier sent discontinuation of this accessory.

The following product is covered by this statement:

Revocation of Discontinued Product
AXIS Q6128 HARD- COATED CLEAR DOME (5801-791)

This product was discontinued by mistake since it was thought to be an accessory for: AXIS Q6124-E, AXIS Q6128-E, AXIS Q6154-E, AXIS Q6155-E. But it was not. It was a spare part for the cameras and dome the products shipped with. There was a running change from a clear dome 5801-871 to a hard coated dome 5801-791.

The cameras must have a spare part dome until they reach EOS in 2028.

Lund, Sweden, November 29, 2022
