AXIS Camera Station Edge

Camera-to-cloud video management

This camera-to-cloud VMS makes it easy to manage your video surveillance. A user-friendly interface lets you view live video, search timelines, and export recordings. It's also possible to receive real-time alert notifications from anywhere, anytime. It requires minimum maintenance and includes continuous updates. Licenses come with all Axis devices — simply insert an AXIS Surveillance Card or use an AXIS S30 Recorder and you're ready to go. It's easy to add new sites and devices to existing sites and there's no need to manually configure each device. Furthermore, with out-of-the-box security and full system encryption as default, it helps you stay secure.

> **Leverages Axis edge devices and the cloud**
> **Intuitive live view, timeline search, and video export**
> **Quick and secure access anytime, anywhere**
> **Easy setup, no server needed**
> **Licenses included with Axis devices**
