

AXIS C1310-E Mk II Network Horn Speaker

Outdoor speaker for clear long-range speech

AXIS C1310-E Mk II Network Horn Speaker is perfect for outdoor environments in most climates. It allows users to remotely prevent unwanted activities, to deliver instructions during an emergency or to make general voice messages. Built-in memory supports pre-recorded messages, or security personal can respond to notifications with live speak. Open standards support easy integration with network video, access control, analytics, and VoIP (supporting SIP). Digital signal processing (DSP) ensures clear sound. The built-in microphone enables remote health testing and 2-way communication. Furthermore, the embedded audio management software supports user, content, zone, and scheduling management.

- > All-in-one speaker system
- > Connects to standard network
- > Simple installation with PoE
- > Remote health testing
- > Scalable and easy to integrate

AXIS C1310-E Mk II Network Horn Speaker

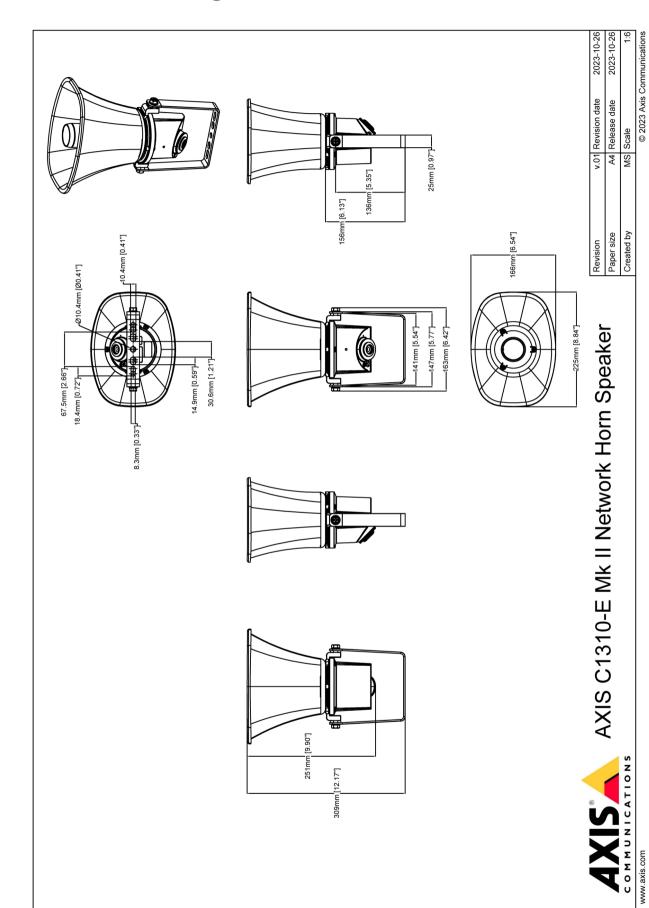

System on chip	o (SoC)		I/O: digital input, manual trigger, virtual input
Model	i.MX 8M Nano		MQTT: subscribe
Memory	1024 MB RAM, 1024 MB Flash	Event actions	Scheduled and recurring: schedule Audio: run automatic speaker test
Audio hardwa	re	Event actions	Audio clips: play, stop
Enclosure	Re-entrant horn loudspeaker with compression driver		I/O: toggle I/O
Max sound pressure level	>121 dB		Light and siren: run, stop MQTT: publish Notification: HTTP, HTTPS, TCP and email
Frequency response	280 Hz - 12.5 kHz		Recordings: record audio SNMP trap messages: send message
Coverage pattern	70° horizontal by 100° vertical (at 2 kHz)		Status LED: flash
Audio input/output	Built-in microphone (can be disabled mechanically) Built-in speaker	Built-in installation aids	Test tone verification and identification
Built-in microphone	50 Hz - 12 kHz	Functional monitoring	Auto Speaker Test, Connection verification, Built-in system logging
specification		Approvals	
Digital signal	Built-in and pre-configured	Product markings	CSA, UL/cUL, UKCA, CE, KC, EAC, VCCI, RCM
processing	Built-in 7 W Class D amplifier	Supply chain	TAA compliant
Amplifier description	·	EMC	EN 55035, EN 55032 Class B, EN 50121-4, EN 61000-6-1, EN 61000-6-2
Audio manage			Australia/New Zealand: RCM AS/NZS CISPR 32 Class B Canada: ICES-3(B)/NMB-3(B)
AXIS Audio Manager Edge	Built in: - Content management for music and live/pre-recorded		Japan: VCCI Class B
Manager Luge	announcements.		Korea: KS C 9835, KS C 9832 Class B
	- Scheduling to decide when and where to play specific content.		USA: FCC Part 15 Subpart B Class B Railway: IEC 62236-4
	 Content prioritization to ensure urgent messages interrupt the schedule. 	Safety	CAN/CSA C22.2 No. 62368-1 ed. 3, IEC/EN/UL 62368-1 ed. 3
	- Zone management allowing you to divide up to 200 speakers	Environment	IEC 60068-2-1, IEC 60068-2-2, IEC 60068-2-14,
	into 20 zones. - Health monitoring for remote discovery of system errors.		IEC 60068-2-27, IEC 60068-2-78, IEC 62262 IK09,
	 User management to control who has access to what features. See separate datasheet for more details. 		IEC/EN 60529 IP66, NEMA 250 Type 4X, MIL-STD-810G 509.5, MIL-STD-810H 509.7
AXIS Audio	For larger and more advanced systems. Sold separately. See	Cybersecurity	ETSI EN 303 645
Manager Pro	separate datasheet for specifications.	Cybersecurity	
AXIS Audio Manager Center	AXIS Audio Manager Center is a cloud service for remote access and management of multi-site systems.	Edge security	Software: Signed firmware, brute force delay protection, digest authentication, password protection Hardware: Axis Edge Vault cybersecurity platform
Audio software			Secure element (CC EAL 6+), Axis device ID, secure keystore,
Audio streaming	One-way/two-way with optional half-duplex echo cancellation. Mono.	Network security	secure boot IEEE 802.1X (EAP-TLS) ^a , IEEE 802.1AE (MACsec PSK/EAP-TLS),
Audio encoding	AAC LC 8/16/32/48 kHz, G.711 PCM 8 kHz, G.726 ADPCM 8 kHz, Axis µ-law 16 kHz, WAV,		IEEE 802.1AR, HTTPS/HSTS ^a , TLS v1.2/v1.3 ^a , Network Time Security (NTS), X.509 Certificate PKI, host-based firewall
	MP3 in mono/stereo from 64 kbps to 320 kbps. Constant and variable bit rate.	Documentation	AXIS OS Hardening Guide
	Sampling rate from 8 kHz up to 48 kHz.		Axis Vulnerability Management Policy Axis Security Development Model
Network			AXIS OS Software Bill of Material (SBOM)
Network protocols	IPv4, IPv6 USGv6, ICMPv4/ICMPv6, HTTP, HTTPS ^a , HTTP/2, TLS ^a , QoS Layer 3 DiffServ, FTP, SFTP, CIFS/SMB, SMTP, mDNS (Bonjour),		To download documents, go to axis.com/support/cybersecu- rity/resources

System integra	IEEE 802.1X (EAP-TLS), IEEE 802.1AR	Casing	IP66- and NEMA 4X-rated Aluminum back can and stainless steel bracket Color: white RAL 9010
Application	Open API for software integration, including VAPIX®, metadata	Power	Power over Ethernet (PoE) IEEE 802.3af/802.3at Type 1 Class 3
Programming Interface	and AXIS Camera Application Platform (ACAP); specifications at	Tower	Typical 2 W, max 12.95 W
interrace	axis.com/developer-community. ACAP includes Native SDK. One-click cloud connection	Connectors	Network: RJ45 10BASE-T/100BASE-TX PoE
	Support for Session Initiation Protocol (SIP) for integration with		I/O: 4-pin 2.5 mm terminal block for 2x supervised configurable I/Os
	Voice over IP (VoIP) systems, peer to peer or integrated with SIP/PBX.	Reliability	Designed for 24/7 operation.
Video	Compatible with AXIS Companion, AXIS Camera Station, video	Operating	Temperature: -40 °C to 60 °C (-40 °F to 140 °F)
management systems	management software from Axis' Application Development Partners available at <i>axis.com/vms</i>	conditions	Humidity: 10-100% RH (condensing) Temperature: -40 °C to 65 °C (-40 °F to 149 °F)
	Auto Speaker Test	conditions	Humidity: 5–95% RH (non-condensing)
Event conditions	Audio: audio clip playing, speaker test result Device status: IP address blocked/removed, live stream active, network lost, new IP address, system ready Edge storage: recording ongoing, storage disruption, storage health issues detected	Dimensions	For the overall product dimensions, see the dimension drawing in this datasheet.
		Weight	1.3 kg (2.9 lb.)

Box content	Horn speaker, installation guide, terminal block connector, connector guard, cable gasket, ring terminal, owner authentication key
Optional accessories	AXIS T91B47 Pole Mount, AXIS T91F67 Pole Mount, Cable Gland M20x1.5, RJ45, Cable Gland A M20, AXIS Power over Ethernet Midspans, T94R01B Corner Bracket, T94P01B Corner Bracket, T94S01P Conduit Back Box For more accessories, go to axis.com/products/axis-c1310-e-mk-ii#accessories
Languages	English, German, French, Spanish, Italian, Russian, Simplified Chinese, Japanese, Korean, Portuguese, Polish, Traditional Chinese, Dutch, Czech, Swedish, Finnish, Turkish, Thai, Vietnamese
Warranty	5-year warranty, see axis.com/warranty
Part numbers	Available at axis.com/products/axis-c1310-e-mk-ii#part- numbers

Sustainability	
Substance control	PVC free in accordance with JEDEC/ECA Standard JS709 RoHS in accordance with EU RoHS Directive 2011/65/EU/ and EN 63000:2018 REACH in accordance with (EC) No 1907/2006. For SCIP UUID, see echa.europa.eu
Materials	Screened for conflict minerals in accordance with OECD guidelines To read more about sustainability at Axis, go to axis.com/about-axis/sustainability
Environmental responsibility	axis.com/environmental-responsibility Axis Communications is a signatory of the UN Global Compact, read more at unglobalcompact.org

a. This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit. (openssl.org), and cryptographic software written by Eric Young (eay@cryptsoft.com).

Highlighted capabilities

Axis Edge Vault

Axis Edge Vault is the hardware-based cybersecurity platform that safeguards the Axis device. It forms the foundation that all secure operations depend on and offer features to protect the device's identity, safeguard its integrity and protect sensitive information from unauthorized access. For instance, secure boot ensures that a device can boot only with signed OS, which prevents physical supply chain tampering. With signed OS, the device is also able to validate new device software before accepting to install it. And the secure keystore is the critical building-block for protecting cryptographic information used for secure communication (IEEE 802.1X, HTTPS, Axis device ID, access control keys etc.) against malicious extraction in the event of a security breach. The secure keystore and secure connections are provided through a Common Criteria or FIPS 140 certified hardware-based cryptographic computing module.
