

AXIS T8344 Power On/Off Plug

Wireless power on/off plug

AXIS T8344 Power On/Off Plug enables remote on/off switching of lamps and other devices. By communicating wirelessly with AXIS M5065 PTZ Network Camera or connected Z-Wave Plus[®] controllers, the power on/off plug can be used in small security solutions with less cabling. Designed to act as a repeater, AXIS T8344 can increase the wireless range of the security solution by up to 100 m. It has two supported outlets: one controllable and one pass-through. The wireless I/O connectivity also enables flexible installation as the relay can easily be moved and adapted to your needs.

- > **Wireless I/O connectivity**
- > **Z-Wave Plus[®] compatibility**
- > **S2 security compliant**

AXIS T8344 Power On/Off Plug

Supported products	AXIS M5065 PTZ Network Camera Compatible with other Z-Wave Plus® control devices	Storage conditions	-20 °C to 60 °C (-4 °F to 140 °F)
Network		Approvals	EMC FCC Part 15 Subpart B Class B, ICES-003 Class B, VCCI Class B Safety UL 244A
