

AXIS W400 Body Worn Activation Kit

Ativação automática de câmeras de uso corporal

O AXIS W400 Body Worn Activation Kit ativa a gravação automaticamente por todas as câmeras de uso corporal no mesmo sistema quando uma barra de luz ou sirene é ativada ou um botão de pânico é pressionado. Isso ajuda a manter os departamentos de polícia em conformidade com as regulamentações, por exemplo. E também garante que haja sempre imagens de eventos agravados.
