

AXIS P8815-2 3D People Counter

Complete, sophisticated 3D people counter

Combining 3D imaging software and hardware in one device, this device counts people in both directions simultaneously and can also estimate occupancy levels in real-time. It can also detect tailgating and direction and notify you if more than one person enters within a set time interval, or if people move in the wrong direction. The device generates a 3D depth map for reliable counting even in challenging conditions. Data from the counter helps you evaluate site performance and analyze visitor trends, allowing you to make informed decisions to optimize operational efficiency. For wide area coverage, it's easy to connect two counters.

AXIS P8815-2 3D People Counter

Application		Event actions	Record video: network share
Functionality	Bi-directional counting. Estimating occupancy. Detecting tailgating. Detecting wrong-way passages. Flexible counting area (for example for revolving doors). Supports wide entrances by using two counters. Video stream anonymization.		Upload of images or video clips: FTP, SFTP, HTTP, HTTPS, network share and email Pre- and post-alarm video or image buffering for recording or upload Notification: email, HTTP, HTTPS, TCP and SNMP trap Overlay text MQTT publish
	Excludes objects below ~110 cm (43 in)	Data streaming	Event data
	Configurable events based on occupancy and number of passages. Automatic upload of counting data to separately sold	Cybersecurity	
Confirmation	AXIS Store Reporter. Upload to third-party software through API. Counting data stored up to 90 days.	Edge security	Software: Signed firmware, brute force delay protection, digest authentication, password protection, AES-XTS-Plain64 256bit SD card encryption Hardware: Secure boot
Configuration	Web configuration interface included	Network security	IEEE 802.1X (EAP-TLS) ^a , IEEE 802.1AR, HTTPS/HSTS ^a , TLS
Compute platform	Edge	•	v1.2/v1.3 ^a , Network Time Security (NTS), X.509 Certificate PKI, IP address filtering
