AXIS Optimizer for XProtect®
Optimizes Axis and Milestone systems

AXIS Optimizer for Milestone XProtect® is a suite of integrations that optimizes the performance of Axis devices in Milestone. Whether you're an administrator, operator, investigator, architect or consultant, the AXIS Optimizer suite of plugins and integrations ensures you enjoy great experiences working with Axis devices in XProtect. Designed and validated to work optimally, this solution covers all key offerings from Axis and ensures all users gain the maximum value from their Axis devices in XProtect. Available for free as a one-time installer, it optimizes Axis-Milestone systems and streamlines daily workflows. Furthermore, you can always count on first-class support from Axis.

> All integrations available as one application
> Easy one-time installation with auto-update
> Designed and validated to work optimally in XProtect
> Cost-effective solution saving time, effort, and money
> Always available for free

AXIS Optimizer for XProtect®
