AXIS F9114 Main Unit
4-channel main unit with audio and I/O

AXIS F9114 is designed for use with up to four sensor units in discreet video surveillance applications. And it requires just one video management software (VMS) license. Ideal for emergency vehicles and buses, it features ignition control with controlled shutdown. AXIS Sensor Metrics Dashboard ACAP comes pre-installed in this main unit. The ACAP gathers information from the connected sensor devices and stores the data directly on the main unit SD-card. The built-in accelerometer alerts you if the vehicle deviates from normal movement. Furthermore, Axis Edge Vault protects your Axis device ID and simplifies authorization of Axis devices on your network.

> **1080p at 30 fps on all 4-channels**

> **Rugged design and connectors**

> **Multiple sensor and cable options**

> **Accelerometer, GPS, modbus support**

> **Built-in cybersecurity with Axis Edge Vault**
