AXIS F9111 Main Unit
Single-channel modular unit with audio and I/O

AXIS F9111 is designed for use with a single sensor unit in discreet video surveillance applications. It delivers excellent video quality even in challenging and low light conditions. Ideal for emergency vehicles and buses, it features ignition control functionality with controlled shutdown to ensure you don't drain the vehicle's battery. Based on a divided network camera concept, it uses sensors and cables (up to 30 m/ 98 ft) from Axis with SMA–FAKRA connectors to withstand vibrations and ensure a ruggedized installation. Furthermore, Axis Edge Vault protects your Axis device ID and simplifies authorization of Axis devices on your network.
