

AXIS D3110 Mk II Connectivity Hub

Secure sensor and audio integration

AXIS D3110 Mk II gives sensor and audio capabilities to network video systems that don't have them or need additional ones – a perfect fit in an Axis end-to-end solution. It connects to a broad range of non-visual sensors to trigger alarms and events in the system. Connected to a microphone, a speaker, or both, AXIS D3110 Mk II increases scene awareness through high-quality audio. It supports ACAP (AXIS Camera Application Platform) and seamless integration through VAPIX®, MQTT, or SIP. Furthermore, Axis Edge Vault, a hardware-based cybersecurity platform, safeguards the device and protects sensitive information from unauthorized access.

- > **Eight supervised configurable I/Os**
- > **Two audio-in ports, one audio-out port**
- > **VAPIX®, MQTT, SIP integration**
- > **AXIS Audio Analytics preinstalled**
- > **Built-in cybersecurity with Axis Edge Vault**
