

AXIS PARTNER SOLUTION

Livestreaming solution for Baseball & Softball

enabling automated camera switching
and scoring integration

CAMSTREAMER

Why Sports Solution?

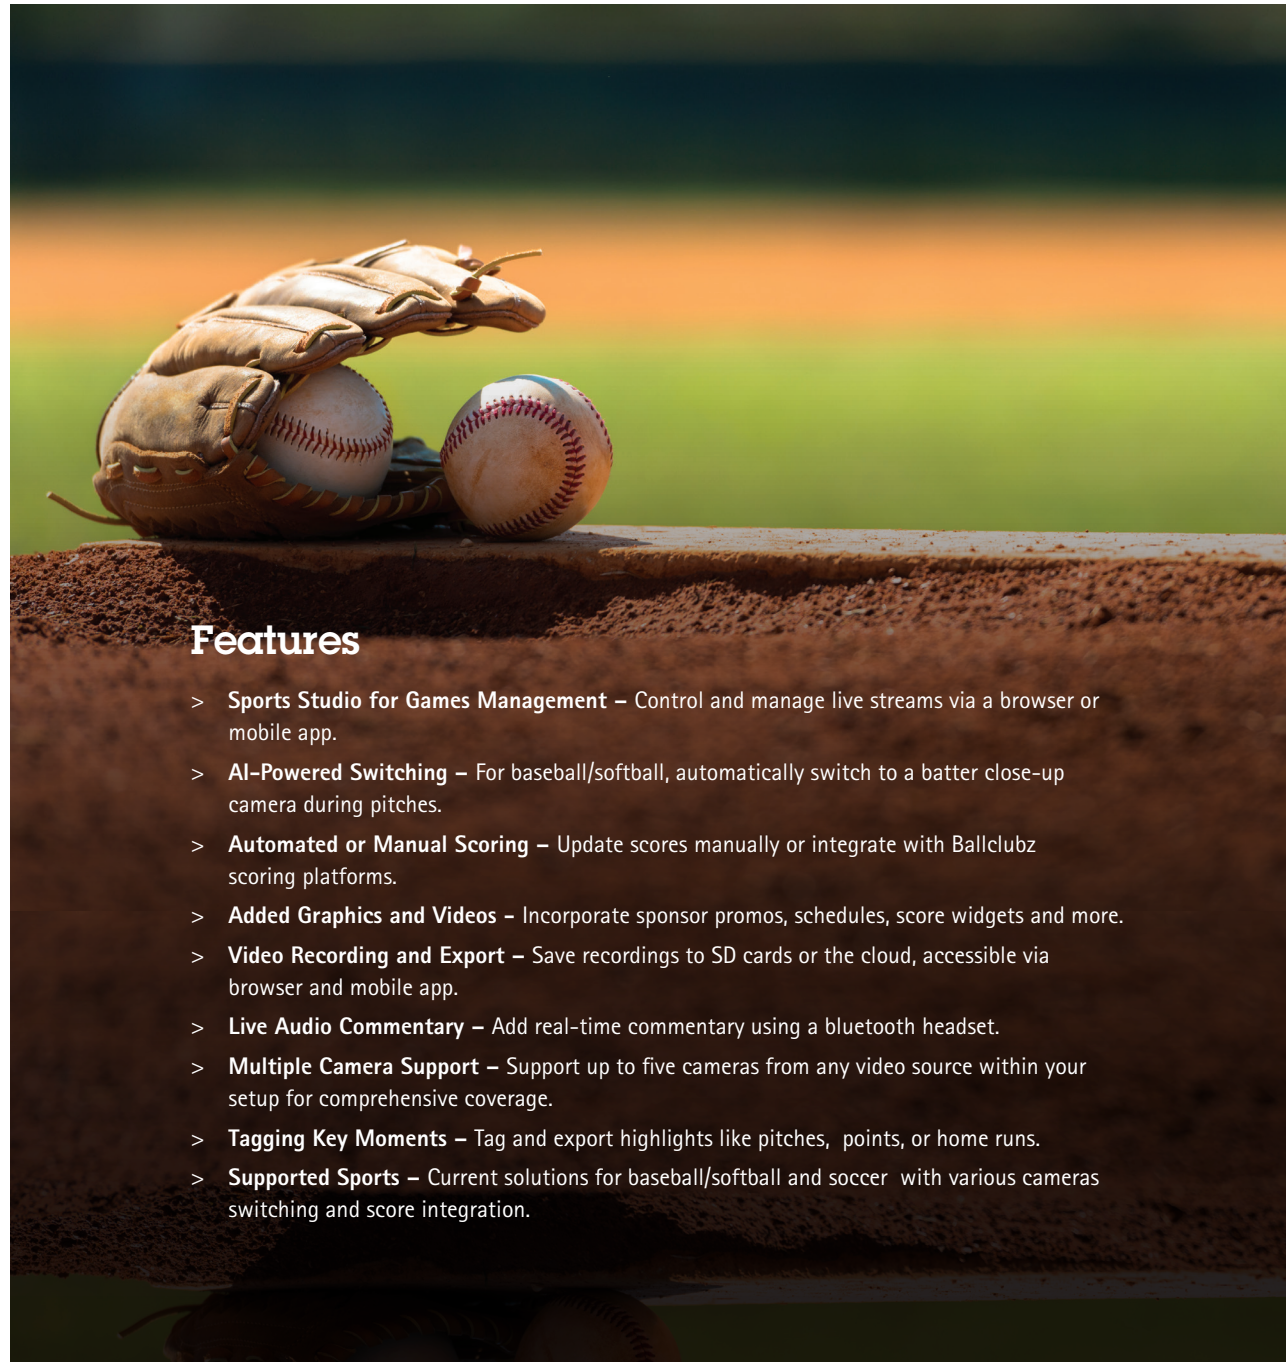

Stream like a Pro! Get one interface to schedule all the seasons and manage live streamings of the games. Experience the magic of automatic camera switching using AI detection. Amplify the value of live streaming with an integrated score, graphic overlays and ads.

Why network video?

- > Superior image quality
- > Remote accessibility
- > Easy, future-proof integration
- > Scalability and flexibility
- > Cost-effectiveness
- > Distributed intelligence
- > Proven technology

Why Axis?

- > Industry leader in network video
- > Global market presence
- > Strong partner network
- > Smart, innovative products and services for video surveillance, access control, audio systems, and video analytics

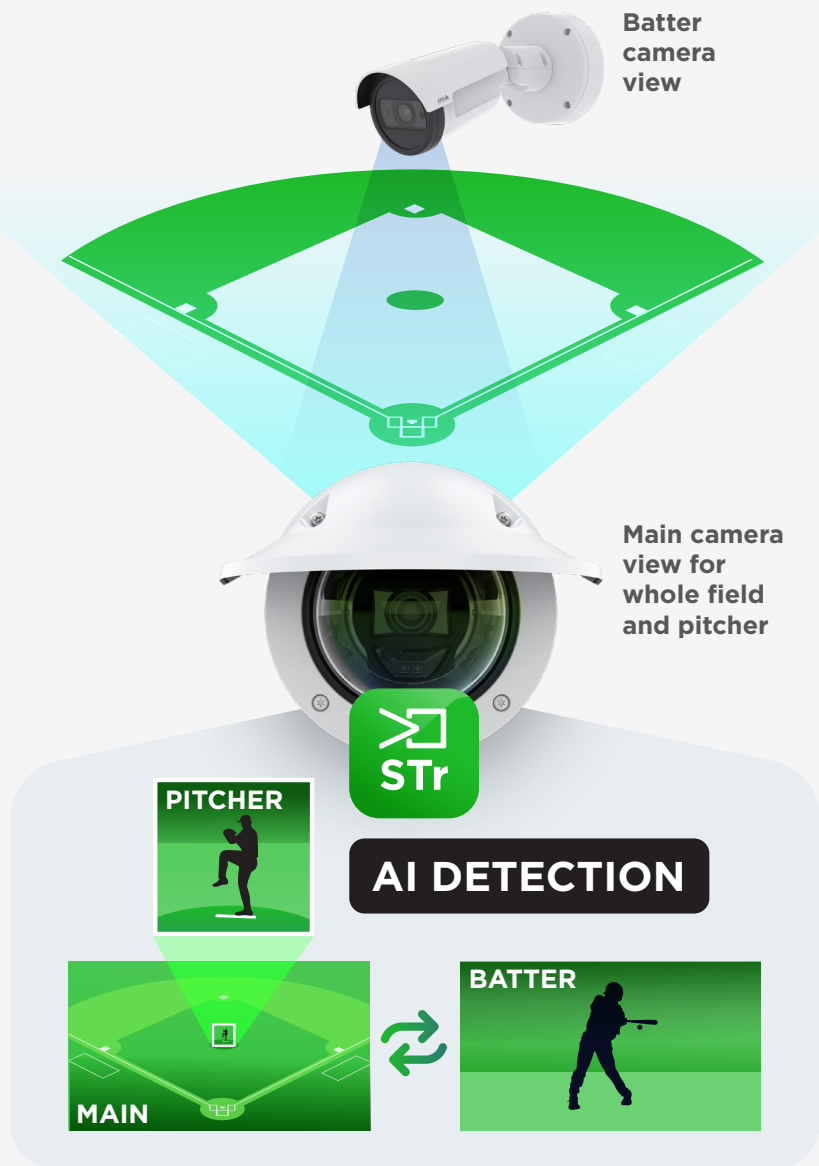

Features

- > **Sports Studio for Games Management** – Control and manage live streams via a browser or mobile app.
- > **AI-Powered Switching** – For baseball/softball, automatically switch to a batter close-up camera during pitches.
- > **Automated or Manual Scoring** – Update scores manually or integrate with Ballclubz scoring platforms.
- > **Added Graphics and Videos** – Incorporate sponsor promos, schedules, score widgets and more.
- > **Video Recording and Export** – Save recordings to SD cards or the cloud, accessible via browser and mobile app.
- > **Live Audio Commentary** – Add real-time commentary using a bluetooth headset.
- > **Multiple Camera Support** – Support up to five cameras from any video source within your setup for comprehensive coverage.
- > **Tagging Key Moments** – Tag and export highlights like pitches, points, or home runs.
- > **Supported Sports** – Current solutions for baseball/softball and soccer with various cameras switching and score integration.

Sports Solution – overview

A live streaming solution designed specifically for Baseball & Softball enables automated camera switching, easy stream management and it integrates a scoring system. Sports Solution leverages the deep learning capabilities of Axis cameras and CamStreamer software.

How does Sports Solution work?

Sports Solution simplifies sports event management and live streaming by offering control via a browser or mobile app. The solution integrates Ballclubz scoring system and adds graphics, video and sponsor promotions to livestream. It records and exports videos to SD cards or the cloud for easy access. It also enables live audio commentary in the stream. Key moments of the game can be tagged and exported as highlights.

Sports Solution uses two fixed Axis cameras to cover the field. With AI detection of the pitch, the system automatically switches between two cameras.

What are the benefits?

- > Set up time and operational costs saving solution All you need is an internet connection, two Axis cameras, and a Sports Solution license
- > Fixed cameras precisely positioned to cover the entire field
- > Automated cameras switching between main view and view at the batter
- > Scoring integration with the Ballclubz platform used by WBSC
- > Livestreaming to any RTMP platform
- > Deep YouTube integration for manual or automated scheduled streaming
- > Easy management of all features through a user-friendly interface, available on desktop or the mobile app

How to build Sports solution

Sports Solution for baseball and softball consists of two Axis cameras with ARTPEC-8 chipset or newer connected through LAN to the internet. The first camera with a DLPU captures the entire field from the position behind the batter. This AI trained camera detects when a pitch is thrown and automatically switches to the second camera. The second one is located at the opposite side of the field for a close-up frontal view of the batter.

Sports solution uses one interface on both a browser and the mobile app for the management of the live streams, adding graphics overlays, camera switching, automated or manual scores, tagging and exporting key moments.

Easy to install, configure and maintain

In case of baseball and softball Sports Solution needs a physical installation of two Axis cameras on the field connected over the internet to the Camstreamer's cloud. There is a Sports Solution interface installed in the CamStreamers cloud. This interface ensures access to all functions of the system.

Camera

Primary:

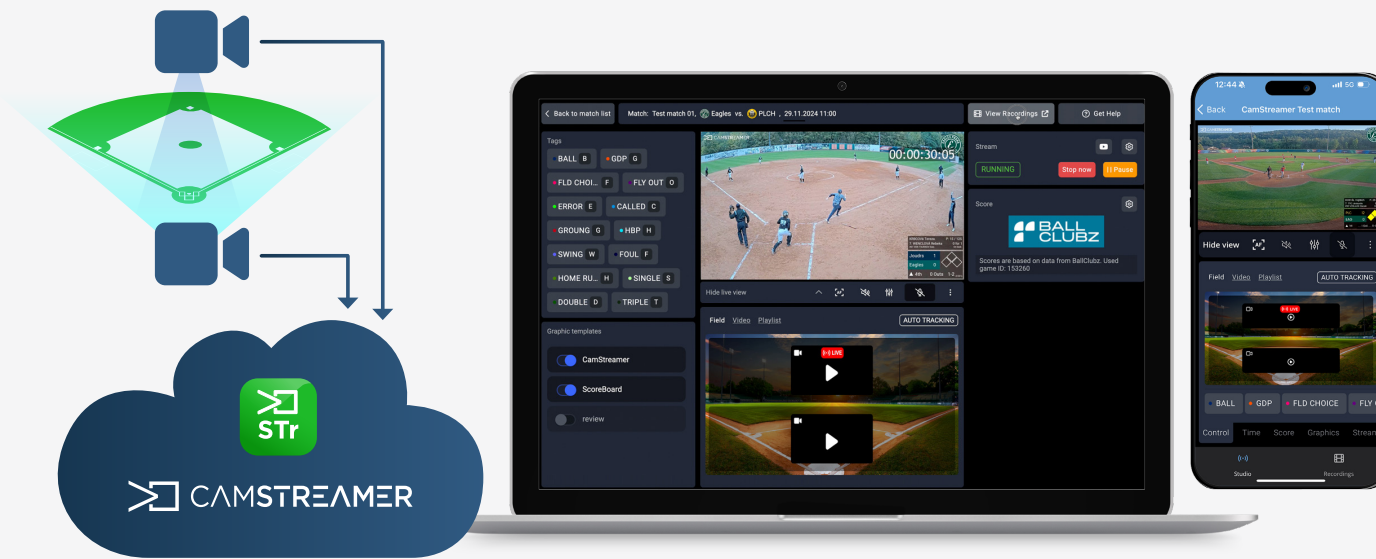

Axis camera with ARTPEC-8/9 chipset with DLPU unit

Secondary:

Axis cameras with ARTPEC-6 at minimum

Application

Sports Solution Cloud License

About Axis Communications

Axis enables a smarter and safer world by improving security, safety, operational efficiency, and business intelligence. As a network technology company and industry leader, Axis offers video surveillance, access control, intercoms, and audio solutions. These are enhanced by intelligent analytics applications and supported by high-quality training.

Axis has around 5,000 dedicated employees in over 50 countries and collaborates with technology and system integration partners worldwide to deliver customer solutions. Axis was founded in 1984, and the headquarters are in Lund, Sweden.
