

Welcome to Axis!

The world leader in network video, headquartered in Lund, Sweden.

About Axis

Axis Communications was formally founded 1984 by Mikael Karlsson, Martin Gren and Keith Bloodworth. The year before, Martin Gren and Mikael Karlsson founded the company Gren & Karlsson Firmware. With Mikael's knowledge and understanding of International Business, Martin's technical expertise and Keith's skills in sales models they formed a complementary and dynamic combination. By the end of the 1980s Axis had established a position as one of the three world leaders in protocol converters/printer interfaces.

With the emergence of new technologies and the growing importance of network accessibility, Axis broadened its connectivity scope to include solutions for network printing and document management in wired and wireless environments. In response to the convergence towards IP-based systems, Axis also focused increasingly on applications for video surveillance, remote monitoring, and web broadcasting, and introduced the world's first network camera in 1996.

While Axis has come a long way since then, one thing hasn't changed – Axis' dedication to serving the market with a consistent succession of winning network video solutions that expand the users' potential. Today, Axis is the world leader in network video, focusing on a new wave of innovation, making advances in light sensitivity, dynamics, color reproduction and resolution in its network cameras. Beyond that, Axis is also successfully moving into new markets that Axis is calling the Internet of Things, such as access control, network horn speakers and IP Video Doorstations. Driven by the vision to come up with new, innovative, smart solutions that meet user needs, Axis will expand its portfolio to keep achieving that.

Axis headquarters

The corporate Axis office is located in the Ideon Business Park in Lund, Sweden. Lund has a history that goes back thousands of years. It is a mix of old Scandinavian history and modern education and foresight. It has the charm of a small university town while at the same time the comforts of a larger city. Lund University, the second oldest university in Sweden, is a central part of the city and hosts students from all over the world. This international culture adds to the character of Lund and suits Axis well.

Contact us

Axis headquarters is located on the outer edge in the north east of the city and borders the university. One of Axis configuration and logistic centers is located in the south western part of the city.

Directions to Axis

By air

Copenhagen Airport (CPH)

The closest international airport is Kastrup Airport located in Copenhagen, Denmark, which is approximately a 45-minute drive to the Axis office. This airport serves most parts of the world with direct flights. More info can be found on: www.cph.dk/CPH/UK/MAIN/. The airport is located directly by the bridge to Sweden and with motorway connections to central Copenhagen and Malmö/Lund. Our recommendation for travel is to take the train to either Malmö or Lund and then taxi to the office. Cost for a single way train ticket from the airport to Malmö is 120 SEK and a ticket to Lund is 150 SEK. Tickets must be purchased from machines or the ticket office, located in the airport or train arrival hall. VISA and MC/EuroCard credit cards are accepted in both.

Please note that there might be a passport control on board the trains coming from Copenhagen airport to Malmö.

A taxi from Lund Central Station to Axis office costs approximately 150 SEK with our preferred taxi company, SveaTaxi Skåne. The cost for a taxi from Copenhagen airport to the Axis office with SveaTaxi Skåne is 1058 SEK and must be booked in advance, please state Axis contact nr 77.

Malmö – Sturup Airport (MMX)

The nearest Swedish airport is Malmö-Sturup which has good domestic connections to Stockholm, and a few international connections. More info can be found on: www.swedavia.com/malmo/

By train

The closest train station is Lund Central Station, which is 5 minutes by taxi to the office. At Lund Central Station available cars from our preferred taxi companies, SveaTaxi Skåne or Cabonline (Taxi Kurir, Sverigetaxi, Taxi Skåne), can be found on the west side or the east side of the building. From Lund Central Station, you will find good connections to most parts of Sweden, and regular direct trains to/from Kastrup Airport.

Information about national train service can be found here: www.sj.se/en/home.html#.

Information about local trains: www.skanetrafiiken.se/

By bus

Buses run between Malmö-Sturup and Malmö Central station, as well as Sturup and Lund Central Station. Information about airport bus transfer from Malmö Sturup airport: www.flygbussarna.se/en

By car

The Axis office is located directly by the E22 motorway from Malmö to Kalmar, exit Lund North (Norra Lund), and offers parking designated for guests only, directly by the office. This will allow you to park for free during your visit.

By taxi

Our preferred taxi companies are SveaTaxi Skåne or the Cabonline Group (Taxi Kurir, Sverigetaxi and Taxi Skåne are some of the companies in the Cabonline Group).

SveaTaxi Skåne tel: +46 40 138000
www.skane.sveataxi.se

Cabonline tel: +46 40 330 330
www.cabonline.com

Cabonline is also easy to book via their app or on their website.

Guests arriving at Sturup airport going directly to Axis in Lund are recommended to use a taxi. Cost for this is approximately 450-500 SEK.

All taxis in Sweden are licensed. This means that (1) the vehicle will have yellow license plates instead of normal white ones, (2) the driver should have his/her taxi driver's license visible on the dashboard and (3) all rates should be published and easily readable from outside the vehicle. To compare the meter price of different companies, all companies should show a comparison price, which indicates a typical journey according to Swedish Transport Regulation regarding taxi carriers. It is advisable to avoid companies showing a very high comparison price.

These taxi companies will also accept major credit cards as payment for the trip. As taxis can be busy during rush hours, we recommend reservation the night before if possible. This can also be done via the hotel, which will ensure that the taxi will use correct rates.

Regulations in Sweden allow customers to choose any taxi, not necessarily the first car in the line. If questioned by other drivers, just state that you have a contract with the company you select.
