

Perimeter protection

# The power to **detect,** **protect and patrol** from perimeter to critical core

with smart video surveillance solutions  
for real-time incident detection.

# DETECT

## Real-time incident detection

AXIS Perimeter Defender is a flexible, scalable video analytics application for perimeter surveillance and protection. The video is analyzed in real time, the analytics discriminate between people, animals and vehicles and can highlight events such as intrusion detection, zone crossing and loitering.

AXIS Q19 Thermal Network Cameras are a perfect tool for perimeter protection. The cameras use thermal imaging, which allows users to detect people, objects and incidents 24 hours a day, seven days a week, from pitch dark areas to full sunlight.

# VERIFY & ACT

## Automatic notification

A threat is verified and the alarm can be sent by an operator to activate other devices.

# IDENTIFY

Axis PTZ network cameras provide pan, tilt and zoom functions, enabling wide area coverage and great details when zooming in.

# DETERRENCE

AXIS C3003-E Network Horn Speaker enables an operator to remotely address people and deter unwanted activity. The loudspeaker can also play a pre-recorded audio file when it is manually or automatically triggered in response to an alarm event.

# MANAGEMENT & FORENSIC ANALYSIS

## Remote monitoring

AXIS Perimeter Defender can easily be combined with AXIS Camera Station or third-party video management software for viewing and proactive events management.
