Course description

Essentials to Retail Solution

Length: 1 day
Format: classroom

Course description

The Essentials to Retail Solution is a full day classroom course covering various video analytics in AXIS Store Optimization Suite and AXIS Loss Prevention Suite. You will get a full understanding of the usages and benefits of each application, as well as essential technical skills for deployment of a retail solution. The course consists of instructor-led presentations and demonstrations accompanied by hands-on lab exercises.

Course objectives

- > Learn basic setup skills on Axis devices suitable for a retail solution
- > Learn about VAPIX® and how it can integrate with different products from Axis
- > Familiarize with various video analytics under AXIS Store Optimization Suite and AXIS Loss Prevention Suite
- > Learn how to set up and configure the video analytics during the training
- > Understand how to build an end-to-end solution in real retail business scenarios

Who should attend?

Professionals working with system integration in retail.

Prerequisites

No prerequisite.
