

Product Discontinuation Statement

This document outlines Axis products that have been discontinued or will be discontinued. Please note that the reason for discontinuation in this case is that the products have been upgraded to Mk II versions.

The following products are covered by this statement:

- AXIS Q3505-V, all sales articles
- AXIS Q3505-VE, all sales articles

Final Order Date

Since this regards an upgrade, a final order date is not applicable. The old versions will continue to be sold until they are out of stock, at which time all orders shall be transferred to the new Mk II versions.

Discontinued Products

Discontinued Product	Replacement Product

Support and RMA Policy

Axis will continue to give world-class support and RMA service for the Discontinued Products until **September 30, 2021**. As long as the product is within the warranty period, the RMA service is for free. If the warranty period has expired, the Out Of Warranty price list applies.

Axis RMA service will be based on the Discontinued Product as the primary alternative. When this is not possible, the replacement product will automatically be the alternative stated in the table above.

No additional feature development will be made for the Discontinued Products, effective **September 30, 2016**.
