

## Export Compliance information

Axis Communications follows laws and regulations to comply with every product and country we ship. The below table provides a general information about ECCN (Export Control Classification Number). ECCN is an alpha-numeric code that describes the item and indicates licensing requirements.

The (re)export, sale, directly or indirectly of Axis products to EU's or USA's prohibited destinations and/or denied parties is not allowed. Axis will make no representation or responsibility for transactions made to prohibited destinations and/or denied parties.

Product name	Export Control Classification Number	EU HS code	US HS Code	US content where applicable*

\*US content – significant US content requires that this product always should follow US export control regulation when being (re)exported.

**Disclaimer.** The above ECCN codes is for reference purposes only and are subject to change without notice. It is the responsibility of exporter, importer of record to consult and comply with the local regulation and ensure that the proper classification is being used based on their local regulations. Since the exporter is responsible for determining the proper authorization for shipment, we recommend you to always consult and comply with the regulations of the appropriate local governmental authorities and ensure proper licensing and authorizations for (re)export.

This information is designed with the purpose to start understanding export control and trade compliance. Axis encourages to seek legal advice to be compliant when (re)exporting our products.
