

## **AXIS P1367 Network Camera**

## Excellent 5 MP surveillance in all light conditions

The 5 MP resolution at full frame rate ensures great video quality with a high level of details. In bright situations the P-Iris gives an optimal image clarity and in complex lighting, or even in the dark, details will be discovered with the help of Forensic WDR together with Lightfinder. The CS-mount camera gives the flexibility to change lenses for different situations. To save bandwidth and storage Axis Zipstream technology optimizes the video stream while maintaining high video quality. Thanks to enhanced processing capabilities the camera is optimized for adding video analytics applications.

- > 5 MP resolution at 25/30 fps
- > CS-mount and i-CS support
- > Lightfinder and Forensic WDR
- > Zipstream
- > Enhanced capabilities for analytics
