

AXIS P7224 Video Encoder Blade

Full-featured, cost-effective video encoders with H.264

AXIS P7224 Video Encoder Blade is a powerful, full-featured and efficient integration of analog cameras into an IP-based video surveillance system. The video encoder blade enables a cost-effective way to gain all the benefits of professional network video without discarding existing analog investments. When AXIS P7224 blades are used with a video encoder chassis, up to 56 analog cameras can be supported in one 5U, 19-inch rack. The video encoder supports all types of analog cameras including PTZ (pan/tilt/zoom) and PTZ domes, offers two-way audio and intelligent video capabilities such as video motion detection, active tampering alarm and audio detection.
