

AXIS Surveillance microSDXC™ Card 128 GB

Reliable edge storage for video surveillance

AXIS Surveillance microSDXC™ Card 128GB is a high performing edge storage solution optimized for video surveillance. Edge storage, supported in most Axis network video products, enables flexible recording solutions with de-centralized video recording, eliminating the need of a server, DVR or NVR. AXIS Surveillance microSDXC™ Card 128GB optimizes bandwidth usage as video is recorded onboard each camera even when bandwidth is limited or absent. Combined with Axis Zipstream technology, even high quality video can be recorded effectively local on AXIS Surveillance microSDXC™ Card 128GB.
