YP3040 Pan-Tilt Motor
Operator-controlled field of view adjustment

YP3040 Pan-Tilt Motor is an optional accessory for Axis fixed network cameras with pan-tilt support. It is ideal for use where a cost-effective solution for fine adjustments to a camera’s field of view is needed. YP3040 can be used both indoors and outdoors. It is recommended for column mounting, but can also be installed on a wall with an optional wall bracket. The recommended power supply is Mains adaptor PS-24.

> Pan-tilt functionality for fixed cameras
> Operator-controlled movements
> IP66-rated protection
> For column and wall mounting
> Easy installation
## YP3040 Pan-Tilt Motor
