

Printing from Win-OS/2 to a OS/2 printer

=====

The "Peer service" is required to do this. Ist not possible with the LS requester only.

In OS/2.

- Open "Sharing and connecting"
- Share the printer
- Select Connections
- Connect to the shared printer using f ex. LPT2
- Close "Sharing and connecting"

In Win-OS/2

- Start "Control panel"
- Printers, select a printer
- Connect it to LPT2.OS2 in this case
