

User Manual

AudioSpeakers 1.0.0

Note!

Please note that this software has only been subject to limited testing and that you cannot expect full support regarding the software. The software is to be considered as experimental and is distributed "as-is" and free of charge. Axis does not officially support this software, and any help other than this manual will be very limited. Any feedback on the software is appreciated.

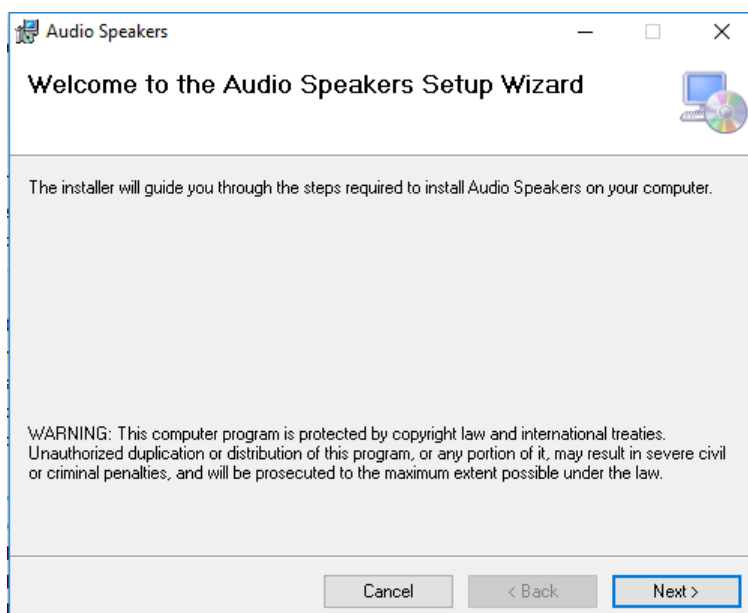

Overview

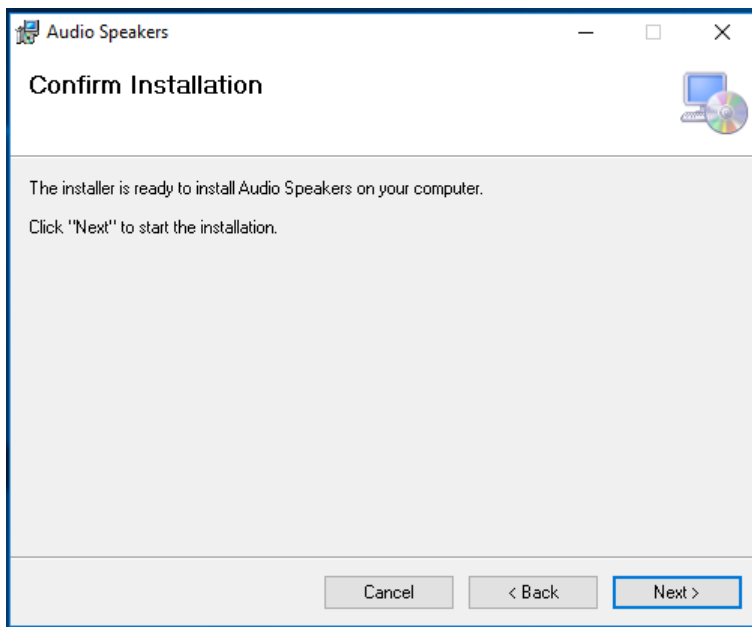

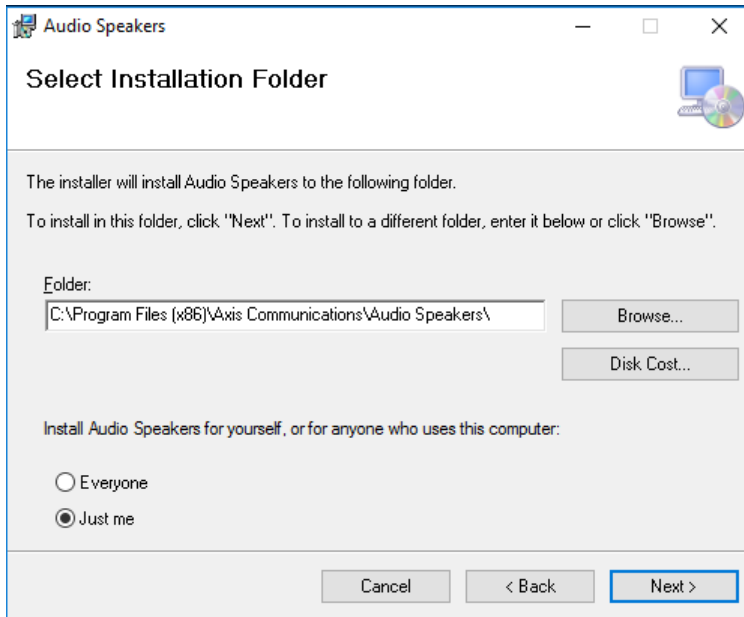

The Audio Speakers software allows to send audio to an AXIS Speaker. The operator can send audio from a Windows computer with network connectivity.

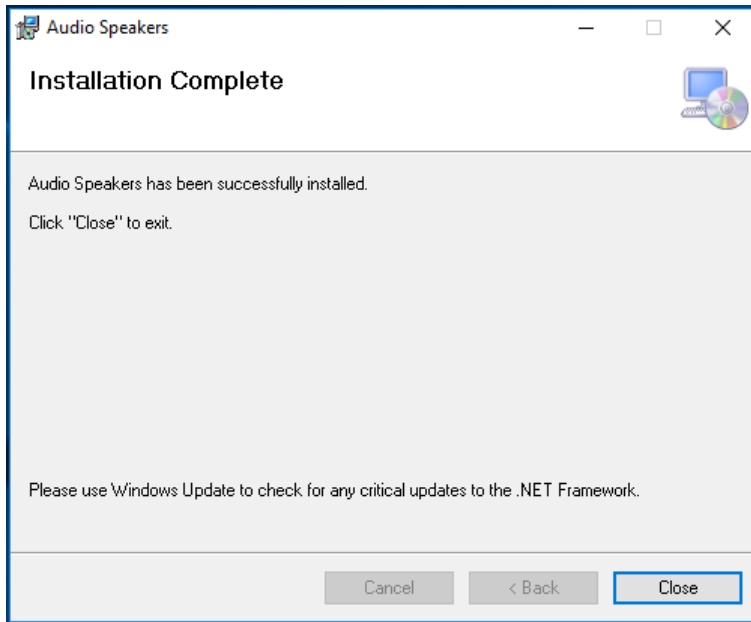

Installation

Run the setup.msi file and follow the wizard.

- .NET Framework 4.5 or higher required.
- DPI settings 100% (default) recommended but not required

Software Overview

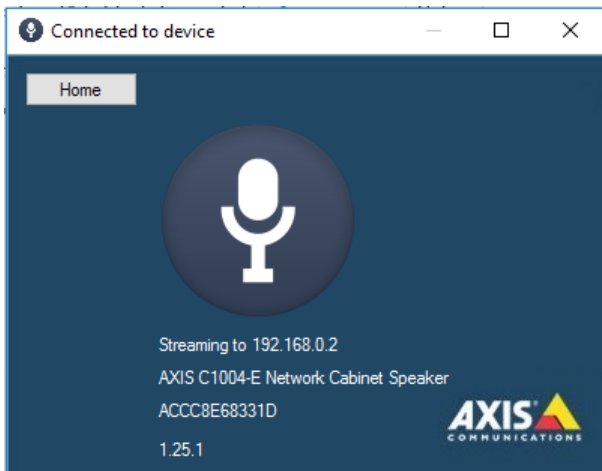

Main interface:

At successful connection the app shows the following page:

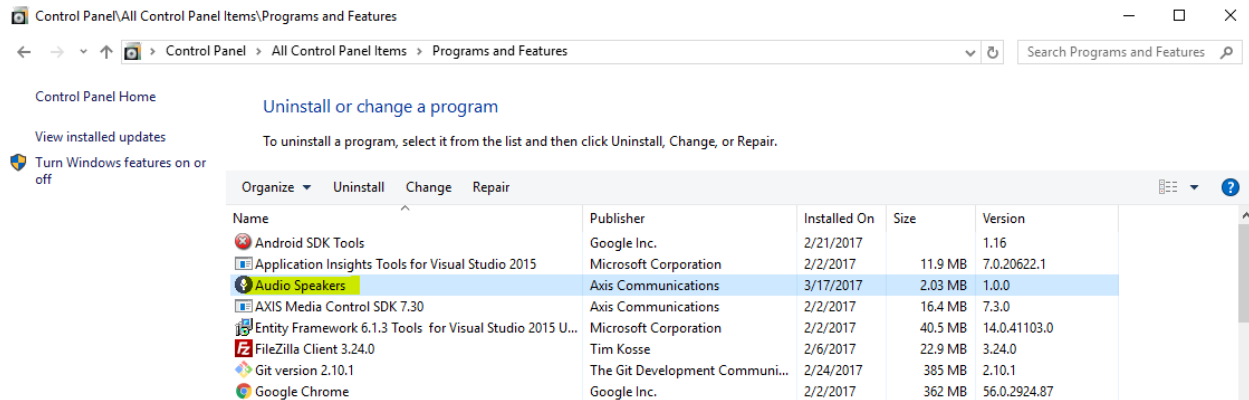

Click on the microphone to send audio to the speaker:

Uninstall

In order to uninstall the application, go to the computer's control panel, select Audio Speakers and hit Uninstall:

Software compatibility

Audio Speakers has been successfully tested on Windows 10 OS
